

LATERAL MECHANICAL CONTROLS WITH TRACTION ACTING WITH LOCKING (heavy loads applications - double cable) AND ORDER FORM MODEL DC 10TD VERSIONS DC 10TD-A5 / DC 10TD-A9

Characteristics:

Versions: not frictioned functioning with 5 or 9 locking blocks with automatic insertion or functioning with friction having an adjustable stiffness with 5 or 9 locking blocks with automatic insertion.

Cable linear stroke: 72 mm

Fastening type: floor fastening or wall fastening

Lever material: steel and nylon

Lever rotation arch: 126° Lever ratio: 6:1

Lever colour: black Knob colour: black or red

To order: compose, please, your product code inserting the boldfaced code corresponding to the chosen option in the proper square.

DC 10TD

Version with 5 locking blocks with automatic insertion: **A5**
Version with 9 locking blocks with automatic insertion: **A9**

Not frictioned functioning: **L**
Functioning with friction having an adjustable stiffness: **F**

Floor fastening: **PV**
Wall fastening: **PR**

Black knob: **N**
Red knob: **R**

Automatic insertion: Pulling the lever the blocks are inserted automatically, not allowing the returning to the starting position except through a wanted movement.

LATERAL MECHANICAL CONTROLS COMPATIBLE CABLES MODELS DC 10TD - DC 10RTD

Characteristics:

Sheath diameter: Ø7 mm or Ø10 mm with inner antifriction tube

Sheath length: upon request

Wire diameter: Ø1,9 mm or Ø2,5 mm or Ø3 mm

Wire protrusion length: upon request

Sheath terminals: see table

Wire terminals: see table

Sheath options

LATERAL MECHANICAL CONTROLS ORDER FORM FOR COMPATIBLE CABLES MODELS DC 10TD - DC 10RTD

To order:

The technical options that are represented on the opposite page are the standard personalizations which are provided from the company.

Among these possibilities, you can choose the cable construction that meets your requirements.

At first choose the sheath diameter and select the corresponding terminals among the possible options.

Find out your preferences and fill in the boxes with the number or the letters/number corresponding to your options.

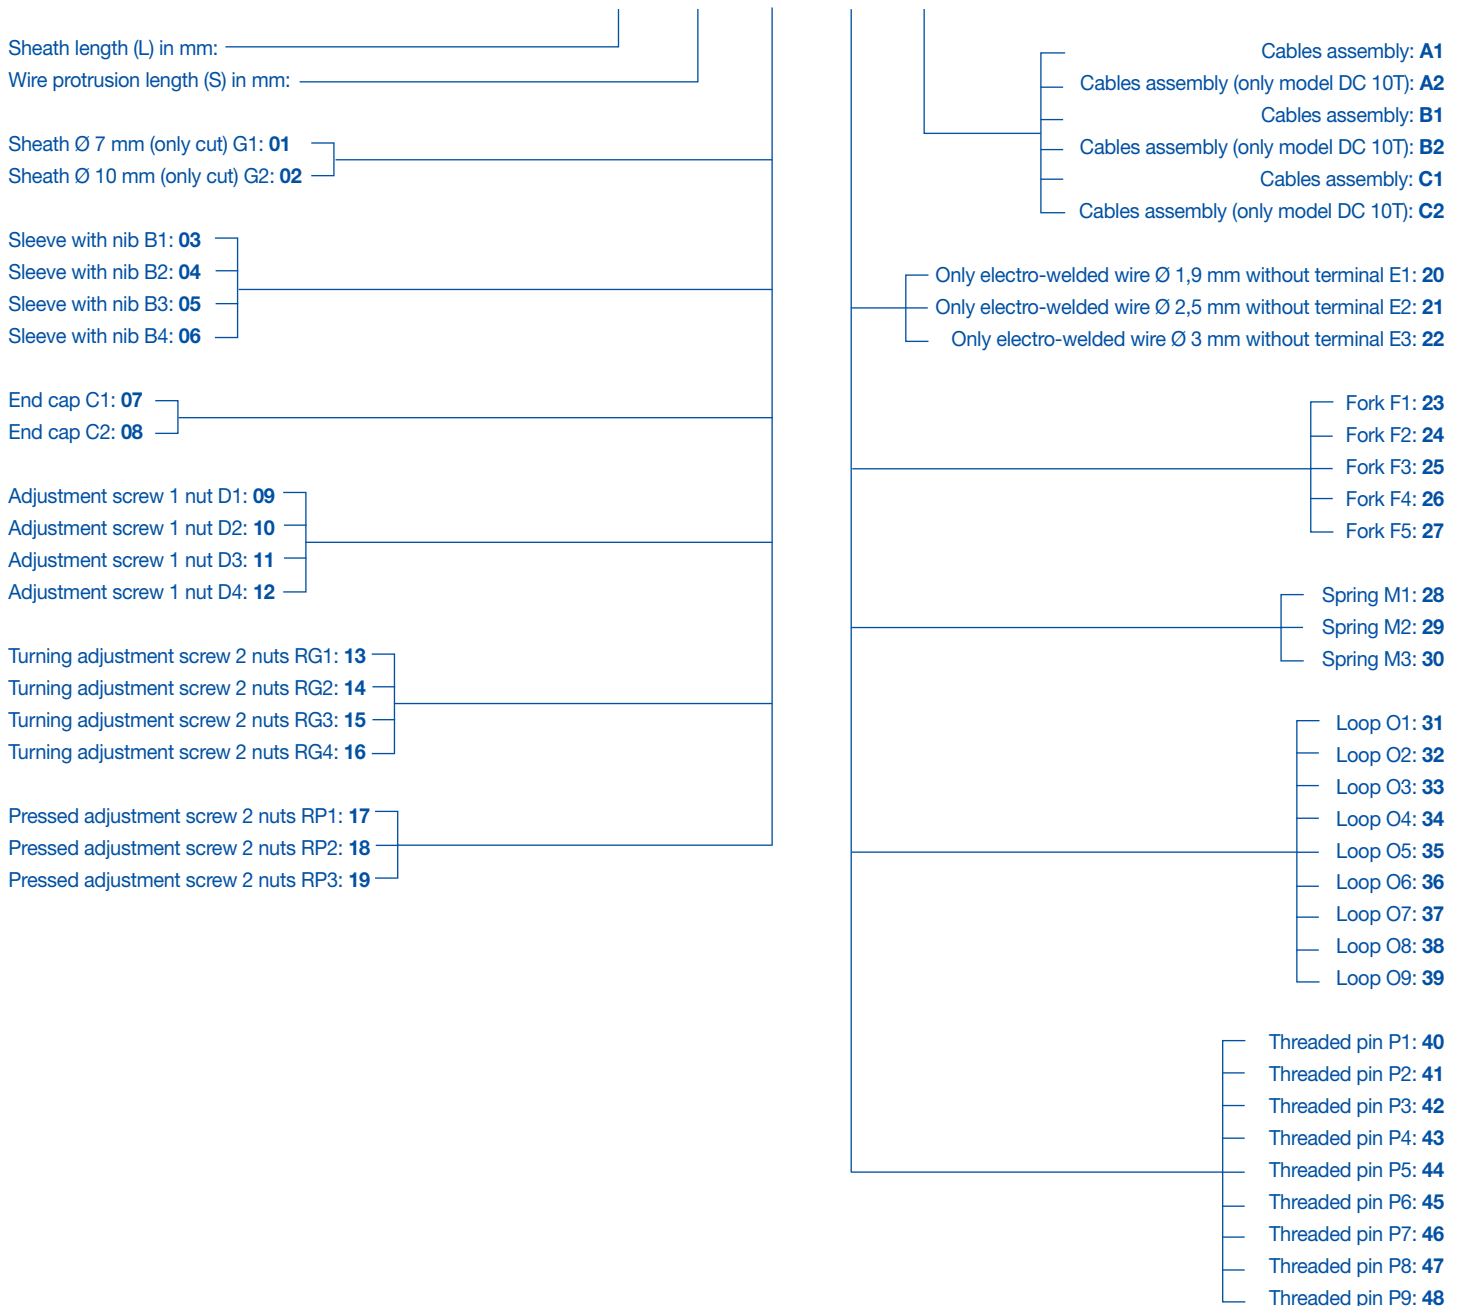

Example: if you choose a Ø7 mm sheath and you want a sleeve with nib as terminal, indicate the code 03 or 04, according to your needs.

And so on for other variables.

The same procedure must be used to choose the wire: start choosing the diameter and then select the corresponding options.

To order: compose, please, your product code inserting the boldfaced code corresponding to the chosen option in the proper square.

Cable A							
Cable B							

L = start point for sheath length. Other cables typologies are available upon request.
