

## COMBINABLE ELECTRIC/MECHANICAL LEVERS UPPER ELECTRIC LEVERS (inner tube assembly) AND ORDER FORM MODEL DS 01EL

### Characteristics:

#### Electric contact:

Normally open microswitch: for internal combustion engine (see note) Normally closed microswitch: for electric engine (see note)

Acting: direct (with standard lever or with long lever) (see note) or with locking hook (only with standard lever)

Lever typology: standard or long Fastening: with screw Assembly: inside a tube

Holder material: aluminium or nylon Little lever colour: red

Diameter of "D" nib to be inserted inside the tube, with aluminium holder: 18 mm - 20 mm - 21 mm - 21,7 mm - 22 mm - 22,55 mm - 25,8 mm - 28 mm

Diameter of "D" nib to be inserted inside the tube, with nylon holder: 18 mm - 20 mm - 21 mm - 22 mm - 23 mm

Knob for outer tube diameter: 22 mm - 25 mm - 26 mm - 27 mm - 28 mm

**To order: compose, please, your product code inserting the boldfaced code corresponding to the chosen option in the proper square.**

DS 01EL comb.

"Normally open" microswitch: **01**  
"Normally closed" microswitch: **02**

Direct acting with standard lever: **ST1**  
Direct acting with long lever: **LG**  
Acting with standard lever and locking hook: **ST2**

Knob "M" for outer tube diameter mm 22: **16**  
Knob "M" for outer tube diameter mm 25: **17**  
Knob "M" for outer tube diameter mm 26: **18**  
Knob "M" for outer tube diameter mm 27: **19**  
Knob "M" for outer tube diameter mm 28: **20**

Aluminium holder "A" with mm 18 "D" nib: **03**  
Aluminium holder "A" with mm 20 "D" nib: **04**  
Aluminium holder "A" with mm 21 "D" nib: **05**  
Aluminium holder "A" with mm 21,7 "D" nib: **06**  
Aluminium holder "A" with mm 22 "D" nib: **07**  
Aluminium holder "A" with mm 22,55 "D" nib: **08**  
Aluminium holder "A" with mm 25,8 "D" nib: **09**  
Aluminium holder "A" with mm 28 "D" nib: **10**  
Nylon holder "N" with mm 18 "D" nib: **11**  
Nylon holder "N" with mm 20 "D" nib: **12**  
Nylon holder "N" with mm 21 "D" nib: **13**  
Nylon holder "N" with mm 22 "D" nib: **14**  
Nylon holder "N" with mm 23 "D" nib: **15**

**Note: Microswitch** = The characteristic of the microswitch "normally open" or "normally closed" is meant with the lever leant on the knob (lowered lever).  
The long lever shape allows, when combined with a lower lever in acting position, to keep the upper lever leant on the tube, avoiding its release.

## COMBINABLE ELECTRIC/MECHANICAL LEVERS ORDER FORM FOR COMPATIBLE WITH UPPER LEVER ELECTRIC CABLES MODEL DS 01EL

**To order:**

The technical options that are represented on the opposite page are the standard personalizations which are provided from the company.

Among these possibilities, you can choose the cable construction that meets your requirements.

At first choose if you want the covered wire only cut or the stripped wires and eventually select the corresponding terminals among the possible options.

Find out your preferences and fill in the boxes with the number or the letters/number corresponding to your options.

Example: if you choose the stripped wires and you want a loop on the blue wire as terminal, indicate the code 12 or 13 or 14, according to your needs.

And so on for other variables.

The same procedure must be used for the brown wire and then select the corresponding options.

**To order: compose, please, your product code inserting the boldfaced code corresponding to the chosen option in the proper square.**

<b>Lever A cable</b>	<b>Cut cables at sheath's edge (T)</b>	<b>Brown covered cable</b>			
		<b>Blue covered cable</b>			

Covered with sheath cables length (L) in mm: \_\_\_\_\_

Covered out of sheath wire Z: **01** \_\_\_\_\_

Male cylinder connector A1: **02** \_\_\_\_\_
