

# COMBINABLE ELECTRIC/MECHANICAL LOWER DOUBLE LEVERS WITH DIRECT ACTING OR WITH SAFETY BLOCK OR WITH LOCKING AND ORDER FORM COMBINATION DS 33EL / LA 200D

### Characteristics:

- Linear stroke in direct acting: 18 mm - 21 mm - 25 mm - 28,5 mm (changeable in action)
- Linear stroke with initial safety block (release + movement, it prevents accidental operations):  
18 mm - 21 mm - 25 mm - 28,5 mm (changeable in action)
- Linear stroke in locking position: 16 mm
- Locking: to be inserted manually or to be inserted automatically
- Assembly: on tubes Fastening type: screws for coupling with upper lever
- Material: nylon Lever colour: black - red - yellow Holder colour: black

To order: compose, please, your product code inserting the boldfaced code corresponding to the chosen option in the proper square.

LA 200D comb.	Lever A			
	Lever B			

- Stroke mm 18: **1**
- Stroke mm 21: **2**
- Stroke mm 25: **3**
- Stroke mm 28,5: **4**

- With direct acting: **D**
- With initial safety block: **B**
- With manual locking: **M**
- With automatic locking: **A**

- Black lever: **N**
- Red lever: **R**
- Yellow lever: **G**

**Safety block:** the lever must be operated voluntarily, through two distinct movements: the operation, therefore, must be wanted, preventing accidental operations.

## COMBINABLE ELECTRIC/MECHANICAL LEVERS COMPATIBLE WITH LOWER LEVER CABLES MODELS LA 100D - LA 150D - LA 200D

### Characteristics:

Sheath diameter: Ø6 mm or Ø7 mm with inner antifriction tube

Sheath length: upon request

Wire diameter: Ø1,9 mm or Ø2,5 mm

Wire protrusion length: upon request

Sheath terminals: see table

Wire terminals: see table

## COMBINABLE ELECTRIC/MECHANICAL LEVERS ORDER FORM FOR COMPATIBLE WITH LOWER LEVER CABLES MODELS LA 100D - LA 150D - LA 200D

### To order:

The technical options that are represented on the opposite page are the standard personalizations which are provided from the company.

Among these possibilities, you can choose the cable construction that meets your requirements.

At first choose the sheath diameter and select the corresponding terminals among the possible options.

Find out your preferences and fill in the boxes with the number or the letters/number corresponding to your options.

Example: if you choose a Ø7 mm sheath and you want a sleeve with nib as terminal, indicate the code 05 or 06, according to your needs.

And so on for other variables.

The same procedure must be used to choose the wire: start choosing the diameter and then select the corresponding options.

**To order: compose, please, your product code inserting the boldfaced code corresponding to the chosen option in the proper square.**

<b>Cable A</b>
