## SINGLE MECHANICAL LEVERS ORDER FORM FOR COMPATIBLE CABLES MODELS DS 33 - DS 33B

**To order:**

The technical options that are represented on the opposite page are the standard personalizations which are provided from the company.

Among these possibilities, you can choose the cable construction that meets your requirements.

At first choose the sheath diameter and select the corresponding terminals among the possible options.

Find out your preferences and fill in the boxes with the number or the letters/number corresponding to your options.

Example: if you choose a Ø7 mm sheath and you want a sleeve with nib as terminal, indicate the code 05 or 06, according to your needs.

And so on for other variables.

The same procedure must be used to choose the wire: start choosing the diameter and then select the corresponding options.

**To order: compose, please, your product code inserting the boldfaced code corresponding to the chosen option in the proper square.**
