

SINGLE MECHANICAL LEVERS WITH LOCKING AND ORDER FORM MODEL LA 100S

Characteristics:

- Linear stroke in locking position: 15 mm
- Locking: to be inserted manually or to be inserted automatically (only for metal lever)
- Locking button: left - right - double (only to be inserted manually)
- Assembly: on tubes Fastening type: nylon collar or metal hose clamp
- Tube outer diameter: 22 mm - 25 mm - 26 mm - 27 mm - 28 mm
- Lever return: without spring or with spring in stainless steel (only for metal lever)
- Lever material: nylon or metal Colour: black Metal treatment: zinc plated or chromium plated

To order: compose, please, your product code inserting the boldfaced code corresponding to the chosen option in the proper square.

LA 100S

- Manual left locking button: **MS**
- Manual right locking button: **MD**
- Manual double locking button: **MX**
- Automatic left locking button (only for metal lever): **AS**
- Automatic right locking button (only for metal lever): **AD**

- Nylon collar: **V**
- Metal hose clamp: **F**

- Outer tube Ø mm 22: **1**
- Outer tube Ø mm 25: **2**
- Outer tube Ø mm 26: **3**
- Outer tube Ø mm 27: **4**
- Outer tube Ø mm 28: **5**

- Nylon lever without return spring: **NS**
- Zinc plated metal lever without return spring: **ZS**
- Zinc plated metal lever with return spring: **ZC**
- Chromium plated metal lever without return spring: **CS**
- Chromium plated metal lever with return spring: **CC**

SINGLE MECHANICAL LEVERS - COMPATIBLE CABLES

MODELS LA 100 - LA 150 - LA 200 - LV 900 - LV 26 - LV 30 - LA 200B LA 100S - LA 100SR - LA 150S - LA 200S - LV 901 - LVS 28 - LV 30S

Characteristics:

Sheath diameter: Ø6 mm or Ø7 mm with inner antifriction tube

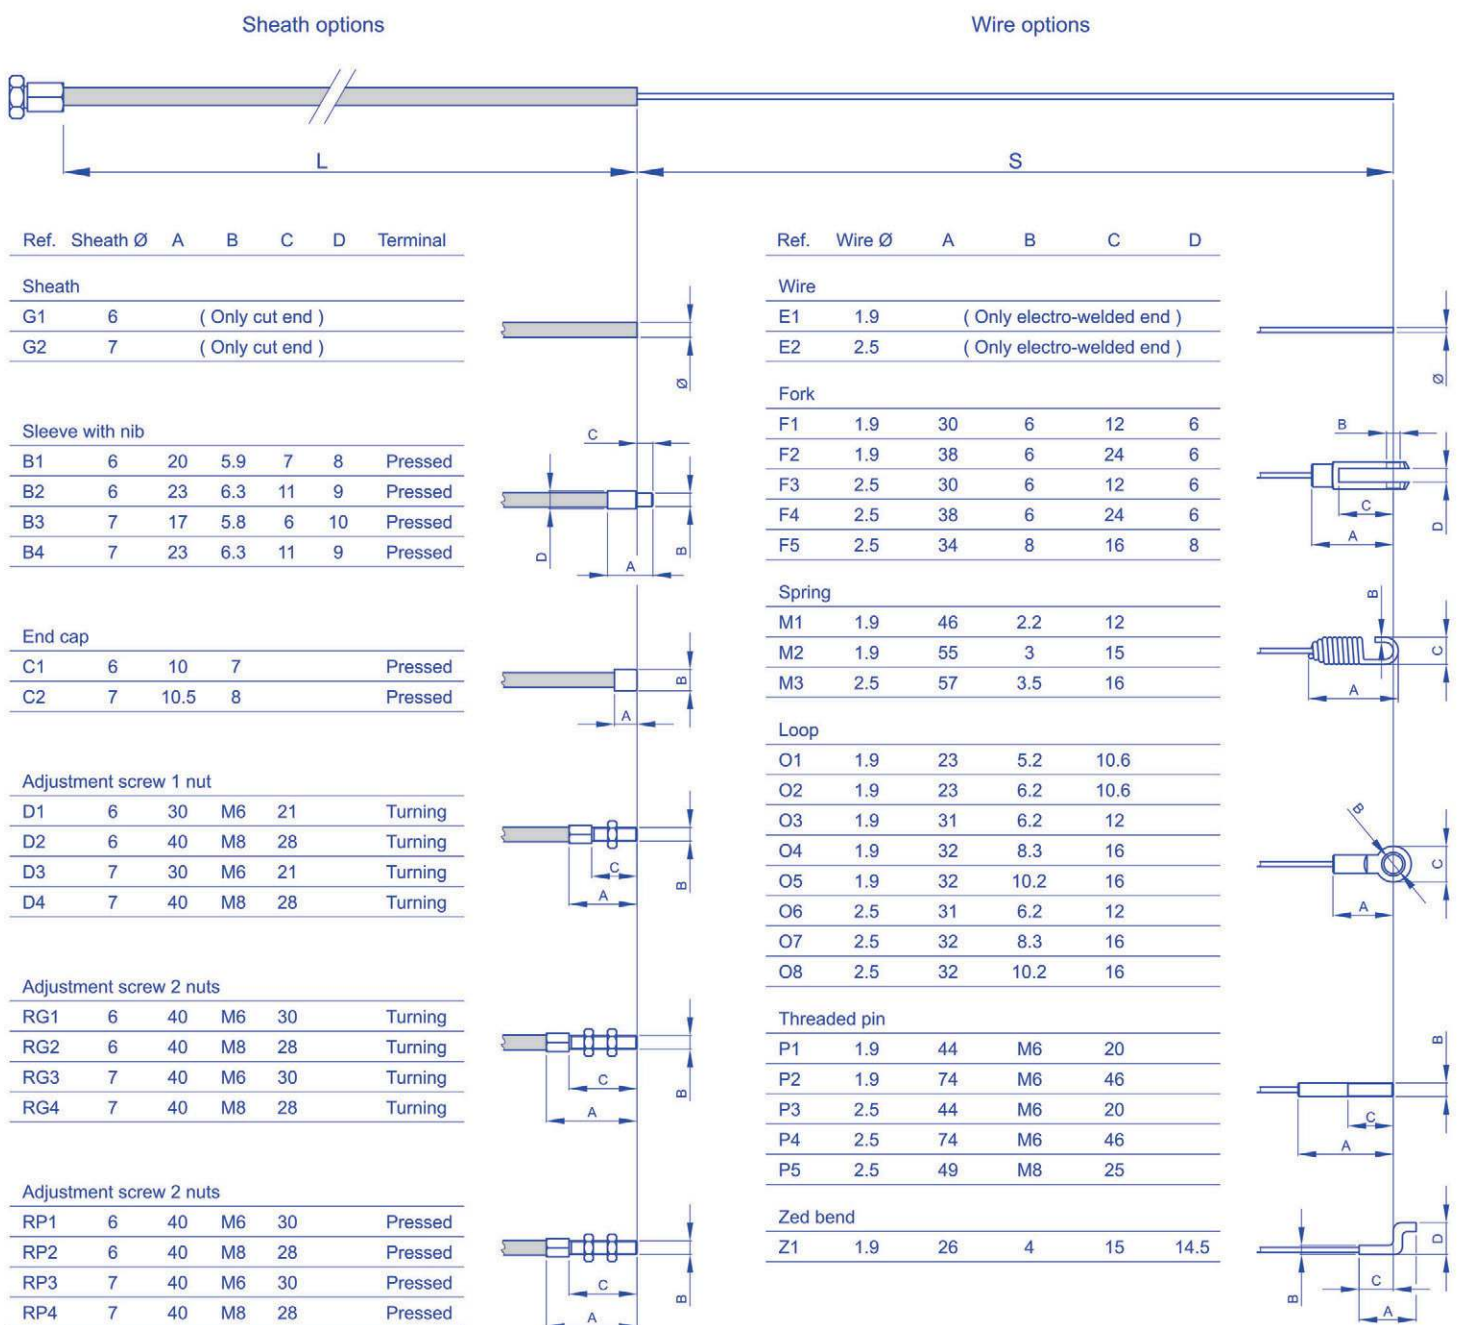

Sheath length: upon request

Wire diameter: Ø1,9 mm or Ø2,5 mm

Wire protrusion length: upon request

Sheath terminals: see table

Wire terminals: see table

SINGLE MECHANICAL LEVERS - ORDER FORM FOR COMPATIBLE CABLES

To order:

The technical options that are represented on the opposite page are the standard personalizations which are provided from the company.

Among these possibilities, you can choose the cable construction that meets your requirements.

At first choose the sheath diameter and select the corresponding terminals among the possible options.

Find out your preferences and fill in the boxes with the number or the letters/number corresponding to your options.

Example: if you choose a \varnothing 7 mm sheath and you want a sleeve with nib as terminal, indicate the code 05 or 06, according to your needs.

And so on for other variables.

The same procedure must be used to choose the wire: start choosing the diameter and then select the corresponding options.

To order: compose, please, your product code inserting the boldfaced code corresponding to the chosen option in the proper square.
